THE ASSOCIATION FOR FINANCIAL PROFESSIONALS OF WESTERN NY

The Association for Financial Professionals of Western New York is a non-profit, educationally oriented organization, which provides a forum for the active and open exchange of concepts and techniques related to the practice of cash and treasury management. Today's membership represents a wide cross section of local industry professionals. Membership is open to individuals from businesses and non-profit organizations, financial service vendors and banks. A free flow of ideas and information is encouraged and maintained among the Association's members.

Each year, the AFPWNY bases its education program decisions on participant response to the previous year's programs. This process ensures that topics addressed during each seminar reflect the most prevalent issues, and that the information provided is on leading edge technologies. Conference attendance continues to flourish resulting from feedback received from attendees.

AFPWNY encourages member participation in the National Association for Financial Professionals (AFP). In addition to offering a wide range of continuing education opportunities, professional certification and industry standards programs, the AFP has become an invaluable resource for disciplines represented in organizational and corporate treasury areas. Together with affiliate organizations, AFP works to increase professional skills and to enhance the recognition and credibility of the treasury management profession.

Program Registration and Lunch: 12:00 PM – 1:00 PM

Come early, it's a great chance to network!

Program: 1:00 PM – 2:00 PM

Topic: Sticking the Landing

Speakers: Stephen Juneau, Vice President, U.S. Economic Research – Bank of America

Session Description: In 2023, the economy defied almost everyone's expectations - the recession many expected never arrived and disinflation continued throughout the year, despite better than expected activity. The path to a soft landing is looking increasingly likely, but risks remain on both sides. The Fed will have to balance these risks to achieve a soft landing. This session will cover whether or not the Fed can pull it off.
